

# Our Plastic Solutions in Mobility

At the heart of your life

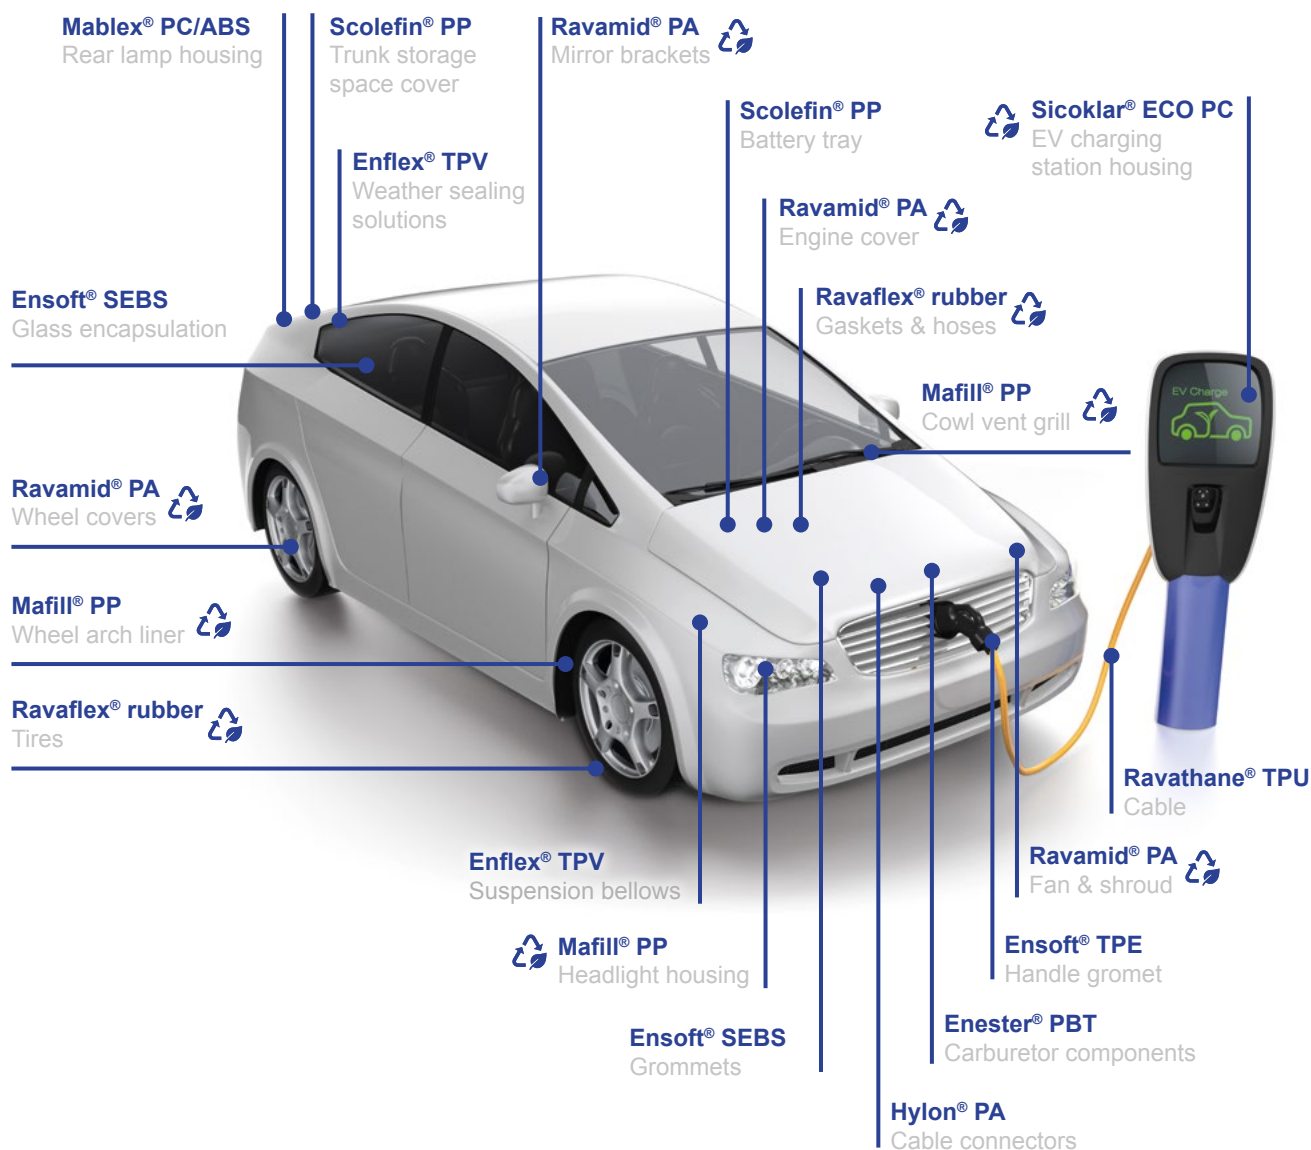

Ravago Manufacturing is a global producer of high-quality plastic compounds including polyolefins, thermoplastic elastomers, rubbers and engineering plastics. We offer both virgin and recycled grades in many polymer types and have extensive knowledge and expertise in the plastics industry. We work together with our customers to deliver solutions for their most demanding application needs.

## Exterior & under-the-hood parts

We offer high performance plastic compounds for a wide range of exterior and under-the-hood automotive parts. Our portfolio contains products with a wide range of fillers and additives, making it easy to find the properties required for your specific application. As well as virgin compounds, we also provide recycled compounds for when designing with recycled materials is a priority.

Here are just some of the places you may find Ravago products in your car exterior or under-the-hood:

## Interior parts

For both visible and non-visible parts, we offer high quality plastic compounds for a wide range of interior automotive applications. Whether you are looking for UV stability, impact resistance, heat stability or colorability, we've got you covered with a wide range of fillers and additives to choose from. Both virgin and recycled compounds are available to suit your needs.

Here are just a few examples where you may find Ravago products in your car interior:

 Post-industrial recycled content

## Contact us

We would love to hear from you and discuss further how we can support you in your mobility applications. You can also reach out to us for product design recommendations and advice on designing for recycling.
